

## PRESS RELEASE 12/17

### ■ GLOBAL SITUATION OF UNDERTAKINGS FOR COLLECTIVE INVESTMENT AND SPECIALISED INVESTMENT FUNDS AT THE END OF MARCH 2012

#### I. Overall situation

As at 31 March 2012, total net assets of undertakings for collective investment and specialised investment funds reached EUR 2,217.206 billion compared to EUR 2,203.159 billion as at 29 February 2012, i.e. a 0.64% growth over one month. Over the last twelve months, the volume of net assets increased by 1.20%.

Overall, the Luxembourg UCI industry registered a positive variation amounting to EUR 14.047 billion during March. This increase represents the balance of positive net issues of EUR 18.102 billion (+0.82%) and a negative development in the financial markets amounting to EUR -4.055 billion (-0.18%).

The number of undertakings for collective investment (UCIs) and specialised investment funds (SIFs) taken into consideration totalled 3,866 as against 3,847 in the previous month. A total of 2,441 entities have adopted an umbrella structure, which represents 11,918 sub-funds. When adding the 1,425 entities with a traditional structure to that figure, a total of 13,343 entities are active in the financial centre.

As regards net capital investment and the impact of financial markets on Luxembourg UCIs, the following can be said about March 2012.

The various categories of equity UCIs developed differently during March. A consolidation movement took place on all the equity markets at the end of the month as illustrated in the following table. Thus, the European, American and Japanese equity UCIs recorded slight price increases whereas all the other categories of equity UCIs registered slight losses. The positive forecasts regarding the world economic conditions together, however, with an increase in uncertainty of investors who are faced with a structural unbalance resulting from massive interventions of the central banks and high budget deficits in many industrialised countries represented the basis of this consolidation movement on the equity markets.

# Commission de Surveillance du Secteur Financier

All in all, equity UCIs recorded net redemptions.

## Development of equity UCIs during the month of March 2012\*

	Market variation	Net issues
Global market equities	-0.79%	0.92%
European equities	0.33%	-0.06%
US equities	3.20%	0.04%
Japanese equities	1.12%	0.89%
Eastern European equities	-2.84%	-0.52%
Asian equities	-2.84%	-0.21%
Latin American equities	-3.14%	-1.79%
Other equities	-1.35%	0.61%

\* Variation in % of Net Assets as compared to the previous month

Thus, EUR-denominated bond UCIs recorded slight price increases. On the European bond market, high-rated government bonds recorded a slight fall in yields whereas risk premiums of lower-rated government bonds increased. A high demand from investors together with a decrease in risk premiums resulted in a price increase of private issuers' bonds.

USD-denominated bond UCIs recorded price decreases. In the United States, an increase was recorded on average of the yields resulting from more favourable economic indicators during the month under review. The speech of the Federal Reserve Bank's Chairman which pointed out some uncertainties concerning the economic conditions as well as a low inflation rate in the United States has however partly compensated this rise in yields of USD-denominated bonds at the end of the month.

The emerging market bonds registered price increases following a great demand for these bonds with a drop in risk premiums. However, due to the depreciation of most emerging market currencies compared to the EUR, the category of emerging countries bond markets has recorded slight price decreases.

Overall, the fixed-income UCIs showed a positive net capital investment.

## Development of fixed-income UCIs during the month of March 2012\*
